Ok, sounds good. Thanks for clarifying and including the others on the e-mail. I'll add all of you to the participant list. As soon as I get the Webex details from the USACE, I'll send them out.

Hi Mary Beth. I am sorry, I misunderstood a past e-mail. Most of the people at Metro Parks will likely only stay for the sections you have blocked off in blue. Our staff engineer (Travis Saunier) may want to sit in on more. Also, David Pinter from FirstEnergy (or someone from his staff) may want to be involved in the entire event as it may help them with their peer review.

Thanks!

Subject: RE: VE study - schedule and participants

Hey Mike – so when you say that you would like to attend all days, does that mean you want to be an official part of the VE team and participate all five days, or did you mean that you want to participate in the three time periods that I highlighted on the schedule?

Either option is ok with me, just want to clarify.

Thanks Mary Beth. I would like to attend all days. I assume this is all virtual? Is there going to be any on-site meeting?

Mike

Subject: VE study - schedule and participants
Importance: High

Hello Gorge Dam Project Coordination Team,

Please see attached handout for the VE study that USACE will be conducting next week on the sediment remediation and containment area. The first page is the schedule; the rest describes the VE process and is just FYI. You are invited to attend the informational session that is taking place on Monday, August 24 between 7:30 am and 11:30 am CENTRAL time. If you plan on attending this information session, please let me know by COB Wed, August 19 so that I can add you to the participant list that USACE would like me to fill out ahead of time.

The information session will go pretty much the same as the presentation did during the preliminary design review meeting. We'll be giving the USACE VE team an overview of the project (and the NSI project) and answer any questions they have. Your attendance is completely optional, and there isn't any new information that's going to be shared, so don't worry if you can't attend.

There are a couple of other sessions during the week that you are welcome to participate in – as indicated by the blue boxes on the schedule. Please note that these times will very likely change, and possibly even the day. I'll keep folks updated on the times of these two sessions throughout the week.

Thanks,
-Mary Beth
